

# YEAR IN REVIEW

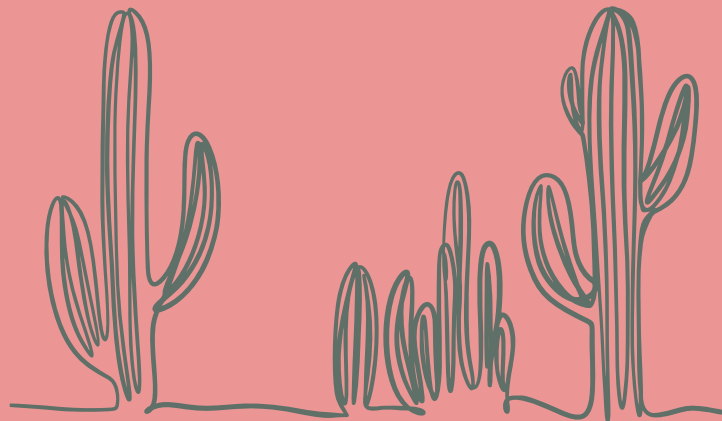

# WILD WEST ACCESS FUND OF NEVADA

**2023** was a busy year for WWAF.

As anti-abortion politicians and judges around the country worked hard to prevent people from accessing the reproductive health care they need, our incredible team of volunteers worked even harder to ensure that anyone in Nevada in need of an abortion could access the care they deserve.

**And your support  
made it possible.**

# 2023 BY THE NUMBERS

requests for assistance: **1296**

average reported  
abortion cost: **\$1,350**

average pledge: **\$279**

**TOTAL pledged: 116,000**

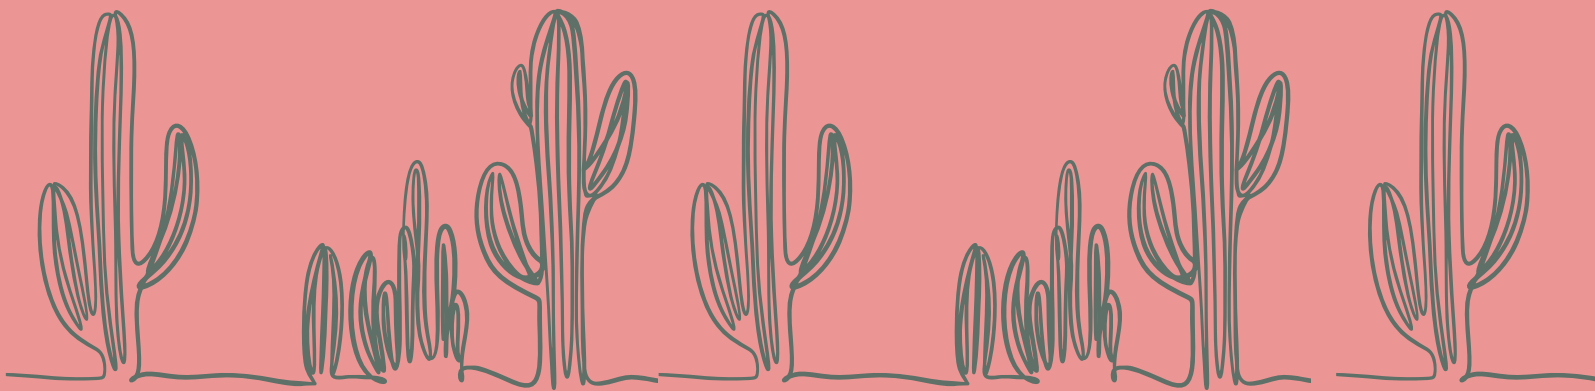

Of the \$168,000 we provided  
for abortion care,

**\$38,500**

went to pledges for people  
traveling from another state to  
Nevada for care.

That amount does not include  
any travel expenses.

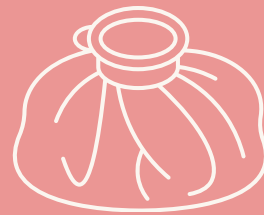

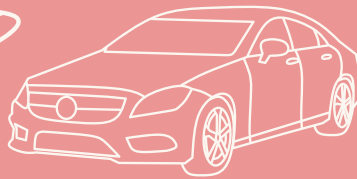

The cost of abortion care goes beyond the pills or procedure itself.

Travel, lodging, rides, and aftercare supplies all add to the rising cost of abortion care in Nevada.

We pledged an estimated\*

**\$13,500**

for practical support costs in 2023.

\*pending final accounting, this amount will likely increase

# 2023 BEYOND THE NUMBERS

Our team is constantly at work, monitoring the ever-changing legal landscape of abortion access in the United States.

We have an amazing network of partners in Nevada and throughout the country and are proud to work with each and every one of them to realize our shared goal:

**Access to abortion  
for every person.**

# LOOKING TO 2024

WWAF is excited to recommit ourselves to our mission of ensuring that every person has the final say in their own reproductive health decisions.

We believe in the power of community and will always work toward our collective liberation.

**WE TAKE CARE OF EACH  
OTHER**
